Information Technology student with a strong interest in Java Full Stack Development and software engineering. Proficient in Core Java, HTML, CSS, JavaScript, and SQL, with hands-on experience developing console-based Java applications and responsive web projects. Eager to apply problem-solving skills and continuously learn modern technologies in a professional software development environment.

Education

Bachelor of Engineering in Information Technology 2023 – 2027
JSPM's Jayawantrao Sawant College of Engineering
Pune, Maharashtra

HSC-PCM 2021-2023
Vidya Prathishthan's Art Science and Commerce College Baramati
Pune, Maharashtra

Technical Skills

Languages: Java, JavaScript, SQL
Web Technologies: HTML, CSS
Databases: MongoDB, MySQL
Tools: GitHub, VS Code, Eclipse, IntelliJ IDEA
Concepts: Data Structures, DBMS, OOP, Operating System, Computer Network

Experience

Front-End Developer Intern | IBM SkillsBuild

📅 08/2025–09/2025

- Developed responsive frontend components using HTML, CSS, and JavaScript.
- Worked on visualizing daily test reports to improve team communication and reporting workflows.
- Collaborated on improving user interface functionality and web responsiveness.

Projects

1) Live Weather Dashboard (Frontend) | HTML, CSS, JS

Developed a responsive Weather Forecast web application using HTML, CSS, JS and Open-Metro API to display real-time weather data with dynamic UI animation.

2) Food Delivery Management System (Core Java) | Core Java, OOP

Developed a console-based Food Delivery application to manage food ordering, bill generation, discounts, GST, and delivery charges using Core Java and OOP concepts.

3) ATM Management System (Core Java) | Core Java, OOP

Developed a console-based ATM application with PIN authentication, balance inquiry, cash withdrawal, and deposit features using Core Java and OOP concepts.

4) Event Management System (Frontend, Backend and Database) | HTML, CSS, JS, Python, Flask, MongoDB

Developed a web-based Event Management System to streamline event planning, registration and tracking.

Implemented functionalities such as event creation, participant registration, search and notifications.

Certifications

- Google Cloud – Introduction to Generative AI Studio
- IBM SkillsBuild Front-End Development Internship
- Adobe Hackathon – Participant
- Flipkart GRID 6.0 – Participant
